## **Artifact Rationale**

A User Guide is a technical communication document intended to give assistance to people using a particular system, such as VistA end users. It is usually written by a technical writer, although it can also be written by programmers, product or project managers, or other technical staff.

Most user guides contain both a written guide and the associated images. In the case of computer applications, it is usual to include screenshots of the human-machine interfaces, and hardware manuals often include clear, simplified diagrams. The language used is matched to the intended audience, with jargon kept to a minimum or explained thoroughly.

The User Guide is a mandatory, build-level document, and should be updated to reflect the contents of the most recently deployed build. The sections documented herein are required if applicable to your product.

# 1. Introduction

The Veterans Legacy Memorial (VLM) is provided by the National Cemetery Administration (NCA) and is an interactive online memorialization solution designed to honor the service and sacrifice of our Nation’s Veterans. This digital memorial space allows visitors to honor, cherish, share, and pay their respects to Veterans interred and inurned at VA national cemeteries. The VLM platform aims to preserve the legacy of those Veterans by commemorating and sharing their stories.

This platform provides an innovative service to allow survivors, family members, and the public to digitally grieve and memorialize their Veterans. It also presents an academic opportunity to allow researchers, students, and others to share historical and educational information about Veterans and the cemeteries themselves, some of which date back to the Civil War.

The VLM application was developed with a responsive web page design that “responds to” or resizes itself depending on the type of device, as seen below. This guide is written primarily for Desk Top Users.

**Figure 1: Veterans Legacy Memorial Responsive Web Page Design.**

## 1.1. Purpose

This guide helps users navigate the VLM application. Users can use most VLM features as a guest, however logging into VLM as a member (Refer to Section 3.4: Site Member Login) enhances the user experience. Regardless of role or network, all users access the VLM application through commercial web browsers, such as Microsoft Edge, Google Chrome, Safari, and Firefox.

**Note:** VLM does not support Internet Explorer.

## 1.2. Disclaimers

### 1.2.1. Software Disclaimer

Since VA software has no IP law protections (patent/copyright/trademark) it can be distributed freely via the Freedom of Information Act (FOIA). The Office of General Counsel submitted the following official disclaimer to the OI&T PD Documentation Standards Committee via email on 9/26/2014 to be used as a “boilerplate” legal disclaimer in software documentation:

For VA applications (apps) developed in-house and distributed internally (i.e., Anonymous Directories) or externally (i.e., VA software Library [VDL], Freedom of Information Act (FOIA>) to the VA, enter the following text:

This software was developed at the Department of Veterans Affairs (VA) by employees of the Federal Government in the course of their official duties. Pursuant to title 17 Section 105 of the United States Code this software is not subject to copyright protection and is in the public domain. ### 1.2.2. Documentation Disclaimer

The appearance of external hyperlink references in this manual does not constitute endorsement by the Department of Veterans Affairs (VA) of this Web site or the information, products, or services contained therein. The VA does not exercise any editorial control over the information you may find at these locations. Such links are provided and are consistent with the stated purpose of the VA.

### 1.2.3. Personal Identifiable Information

Users who contact VLM Customer Support at [VLM@va.gov](mailto:VLM@va.gov) regarding possible data errors on their Veteran’s VLM page are advised that this email box is not secure for receiving personally identifiable information (PII) such as social security numbers or military service numbers. Customers who provide documentation, including but not limited to DD-214 forms, to support their request for VLM changes or additions are advised to redact any PII before sending.

## 1.3. Accessibility

Users with visual disabilities can use Job Access with Speech (JAWS) to navigate VLM when the program is installed on their desktop computer. The following directions assume the user has JAWS installed. To turn on the JAWS screen reader, locate the Start Menu and select JAWS from the list of programs. Press the Tab key to navigate the screen and, as the focus moves around on the screen, JAWS reads the VLM Screen elements. To leave the Tab navigation, press escape once. To return to Tab navigation, press escape twice. You may also move to the next element in the reading order by pressing the Down Arrow. However, if the screen elements are lined up horizontally, the reader will announce them together. To prevent the reader from making a single announcement, unselect the Screen Layout Checkbox in Browser Mode.

### 3.7. Veteran Profile Page

The Veteran's Profile page header displays a rotating theme photo and includes the Veteran's Service Branch seal as the default Profile Image next to the Veteran's name. VLM Administrators from NCA choose a Profile Image from images submitted and posted to the Veteran's Profile page. The page also displays the Veteran's personal information, such as name, dates of birth/death, and religious Emblem of Belief (when available in the Veteran's record).

Refer to the approved list of [Emblems of Belief](#).

The Veteran's Profile page header persists throughout all three tabs of a Veteran's Profile page.

Figure 40: Veteran Profile Header.

Under the Veteran’s personal information, the Follow Veteran and Leave a tribute options display. Select the **Leave a tribute** button to go to the Tribute section. For instructions to follow a Veteran, refer to *Section 3.7.1 Follow Veteran*.

## 5.4. Decorations

Below is the list of the decorations that are medals and badges that recognize military service and personal accomplishments.

**Table 5: Decorations**

Medal	Description
	<p>Navy and Marine Corps Medal of Honor</p> <p>The Medal of Honor is the United States of America's highest and most prestigious personal military decoration that may be awarded to recognize U.S. military service members who have distinguished themselves by acts of valor. The medal is normally awarded by the President of the United States in the name of the U.S. Congress.</p>
	<p>Army Medal of Honor</p>
	<p>Air Force Medal of Honor</p>
	<p>The Marine Corps Brevet Medal was a military decoration of the United States Marine Corps; it was created in 1921 as a result of Marine Corps Order Number 26. The decoration was a one-time issuance and retroactively recognized living Marine Corps officers who had received a brevet rank. The similar practice of frocking continues in all five branches of the U.S. Armed Forces.</p>
	<p>The Distinguished Service Cross is the second highest military award that can be given to a member of the United States Army (and previously the United States Air Force), for extreme gallantry and risk of life in actual combat with an armed enemy force. Actions that merit the Distinguished Service Cross must be of such a high degree that they are above those required for all other U.S. combat decorations but do not meet the criteria for the Medal of Honor. The Distinguished Service Cross is equivalent to the Navy Cross (Navy and Marine Corps), the Air Force Cross (Air Force), and the Coast Guard Cross (Coast Guard).</p>
	<p>The Navy Cross is the United States military's second-highest decoration awarded for valor in combat.
